NEW QUESTION: 3

A user has suspended the scaling process on the Auto Scaling group. A scaling activity to increase the instance count was already in progress. What effect will the suspension have on that activity?

- A. Pauses the instance launch and launches it only after Auto

Scaling is resumed

B. Terminates the instance

C. No effect. The scaling activity continues

D. Stops the instance temporary

Answer: C

Explanation:

The user may want to stop the automated scaling processes on the Auto Scaling groups either to perform manual operations or during emergency situations. To perform this, the user can suspend one or more scaling processes at any time. When this process is suspended, Auto Scaling creates no new scaling activities for that group. Scaling activities that were already in progress before the group was suspended continue until completed.
