#### **NEW QUESTION: 1**

As a technical test analyst, which documents would you typically create?

- A. Test script, test log, incident report and test design
- B. Incident report, test item transmittal report, test cases and test procedure

- C. Test plan, test log, test design and test summary report
- D. Test plan, test design, test cases and test log

**Answer: A**

**NEW QUESTION: 2**

Which of the following most accurately describes the overall objective of financial reporting?

- A. Provide information that is useful for decision making
- B. To classify an organization's stakeholders as either internal or external information users
- C. Enhance and organization's financial consistency over time as Board members change
- D. Enable International Accounting Standards Board (IASB) to issue more useful and consistent pronouncements

**Answer: A**

**NEW QUESTION: 3**

- A. Windows Azure session state
- B. Windows Azure application state
- C. Profile properties of the Windows Azure application
- D. SQL Azure

**Answer: D**

Explanation:

Explanation

SQL Database provides a relational database management system for Windows Azure and is based on SQL Server technology. With a SQL Database instance, you can easily provision and deploy relational database solutions to the cloud, and take advantage of a distributed data center that provides enterprise-class availability, scalability, and security with the benefits of built-in data protection and self-healing.

Incorrect:

Not A: Application State does not exist in Azure.

Not C: Profile properties stores personal, not global, information.

Not D: Session state is not global. Session states handles user information such as cookies, hidden fields, and query strings are some client-side options to tracking user state

**NEW QUESTION: 4**

Which Debian package management tool asks the configuration questions for a specific already installed package just as if the package were being installed for the first time? (Specify ONLY the command without any path or parameters.)

**Answer:**

Explanation:

dpkg-reconfigure
