**Answer: D**

**NEW QUESTION: 2**

Universal Containers is leveraging Salesforce Content and needs to make it available to their Community users (Customers, Partners, and Employees). Which users will be able to view Salesforce Content based on their license?

- A. Users with the Customer Community Login license
- B. Users with the Customer Community license
- C. Users with the High -Volume Customer Portal license
- D. Users with the Customer Community Plus license

**Answer: C**

**NEW QUESTION: 3**

Scenario

Additional Information

Chief Executive Officer (CEO): He started the company 25 years ago and knows his job very well. He injured his leg two years ago which has restricted his visits to the engineering area. As CEO he has an overall perspective of the business strategic requirements and the authority to commit resources as required.

Marketing Director: She has been with the company for three years, following a successful career with a publicity company. She has the ability to represent the needs of the business, particularly as this is a marketing project. She has the authority to commit the annual business marketing budget, from which the project will be funded, as she sees appropriate. She will be responsible for monitoring the expected benefits of the calendar, in particular the improvement of the company's image.

Engineering Manager: He has been responsible for many engineering innovations in the company and is still as keen and energetic as the day he started. Whilst he will not be part of the project team, his staff will feature in the photos for the promotional calendar.

Central Records: This group of five staff looks after all company records and document control. They now maintain all project files.

Bright Lights: This is the local office supplies company. It supplies all the stationery and office equipment needs of the company and will supply the stationery for this project.

Portraits ltd: This is a professional photographic company with a number of excellent photographers and a history of successful work. This company has been selected to take the photos for the company calendar.

It has yet be decided which of the photographers to use.

Which 2 statements explain why Central Records should be appointed as Project Support for this project?

- A. They control the receipt, identification, versions, storage and issue of all project products within the company's projects.
- B. They will ensure compliance with all company policies and procedures.
- C. They already exist within the organization and have been

with the company for many years.

**D.** They have knowledge of the organizational standards that will be applicable to the project.

**E.** They perform a quality assurance function across all projects.

**Answer: A,D**

#### **NEW QUESTION: 4**

Universal Containers (UC) has an app that allows a customer to schedule a compute-intensive job. It allows the customer to schedule the job on an ad-hoc basis. UC has decided to break up the app into the following services: - Website: an Interface for their customers; - Billing: generates monthly invoices based on usage metrics; - Traffic Cop: manages the job queue, job definitions and job schedule; - Job Runner; runs jobs that Traffic Cop queues up. It is responsible for self-introspection and self-scaling. UC also wants to create a data lake for analytics. What foundational technology and design should an Architect use to manage communication between these services?

**A.** Heroku Redis, create a large Redis store. Allow each service to place messages with an agreed-upon format into a single queue, backed by the Redis store. Services listen for messages addressed to them and take action on them. Redis will serve as the data lake.

**B.** Heroku Connect and Salesforce Sync all relevant data into Salesforce and allow it to flow into each service. Create custom objects for each service and allow them to post to each others' objects as needed.

Push data from Salesforce into Heroku Postgres for a data lake.

**C.** Apache Kafka on Heroku. Create a Kafka queue for each service. Create a central routing service that connects to all of the Kafka queues and routes data. The central router is attached to a data lake, and pushes every message into it.

**D.** Apache Kafka on Heroku as a bus between all services. Create topics for billing, jobs, and website clicks. Create an additional service, which will subscribe for all topics, and dump every message into a data lake.

**Answer: D**
