**Answer: B**

**NEW QUESTION: 4**

Creation and maintenance of intrusion detection systems and processes for the following is one of them identify it:

- A. Netware monitoring
- B. Event notification
- C. Guest access
- D. Event nonrepudiation

**Answer: B**

Explanation:

There is not much to explain or comment in here, when you administer an IDS system you have to deal with the maintenance and creation of event notification processes, this have to be reviewed every certain time. This is a well known topic for any Intrusion detection system administrator. This notifications will save your life when your network is being attacked and you get real time notifications that will allow you to shut down your external interface before the attacker gets what he was looking for.
