NEW QUESTION: 3

What will have the HIGHEST impact on standard information security governance models?

- A. Organizational budget
- B. Number of employees
- C. Complexity of organizational structure
- D. Distance between physical locations

Answer: C

Explanation:

Explanation/Reference:

Explanation:

Information security governance models are highly dependent on the overall organizational structure.

Some of the elements that impact organizational structure are multiple missions and functions across the organization, leadership and lines of communication. Number of employees and distance between physical locations have less impact on information security governance models since well-defined process, technology and people components intermingle to provide the proper governance. Organizational budget is not a major impact once good governance models are in place, hence governance will help in effective management of the organization's budget.

Explanation

Box 1: 8080

1433 is the default port, but we must change it as CONT_SQL3 must not communicate over the default ports.

Because port 1433 is the known standard for SQL Server, some organizations specify that the SQL Server port number should be changed to enhance security.

Box 2: SQL Server Configuration Manager

You can configure an instance of the SQL Server Database Engine to listen on a specific fixed port by using the SQL Server Configuration Manager.
