Because our C_BYD01_1811 valid test engine is virus-free, you can rest assured to use.

NEW QUESTION: 1

Review the exhibit of an explicit proxy policy configuration. If there is a proxy connection attempt coming from the IP address 10.0.1.5, and from a user that has not authenticated yet, what action does the FortiGate proxy take?

- A.** User is prompted to authenticate. Traffic from the user Student will be allowed by the policy #1. Traffic from any other user will be allowed by the policy #2.
- B.** User is not prompted to authenticate. The connection will be allowed by the proxy policy #1.
- C.** User is prompted to authenticate. Only traffic from the user Student will be allowed. Traffic from any other user will be blocked.
- D.** User is not prompted to authenticate. The connection is allowed by the proxy policy #2.

Answer: C

NEW QUESTION: 2

You are configuring a query rule for a site in a SharePoint site collection.

You need to promote specific search results during a defined date range only.

Which two actions should you perform? (Each correct answer presents part of the solution.

Choose two.)

- A. Configure query conditions for the rule.
- B. Add the rule without a source type.
- C. Configure publishing options for the rule.
- D. Configure actions for the rule.
- E. Add the rule with a source type.

Answer: C,D

Explanation:

Without using any custom code, Search service application administrators, site collection administrators, and site owners can help searches respond to the intent of users by creating query rules. In a query rule, you specify conditions and correlated actions. When a query meets the conditions in a query rule, the search system performs the actions specified in the rule to improve the relevance of the search results, such as by narrowing results or changing the order in which results are displayed. For example, a query rule condition could be that a term in a query matches a particular term in a SharePoint term set, or that a query is frequently performed on a particular result source in a search system, such as videos. When the query rule condition is satisfied, a correlated action could be to show a specific item at the top of the search results.

You can configure query rules for one or more result sources, and you can specify the time period during which the query rule is active.

E: To make the query rule active during a particular time period, click Publishing, and then specify the period.

Reference: Manage query rules in SharePoint Server 2013

NEW QUESTION: 3

Depending on the link type, OSPF sends link state update packets to which two addresses? (Choose two.)

- A. 224.0.0.9
- B. 224.0.0.6
- C. 224.0.0.5
- D. 224.0.0.8

Answer: B,C

Explanation:

Explanation/Reference:

Explanation:

Every time a router sends an update, it sends it to the DR and BDR on the multicast address 224.0.0.6.

The DR will then send the update out to all other routers in the area, to the multicast address 224.0.0.5.
