**NEW QUESTION: 2**

A man expresses surprise that his wife has become very withdrawn during hospitalization for pneumonia. Which response helps the husband understand how some people cope with hospitalization?

- A. "Hospitalization might cause a crisis. Has your wife had to cope with problems before this?"
- B. "This is typical behavior for someone who is as ill as your wife."
- C. "Your wife might be feeling concern that she cannot fulfill her normal roles."
- D. "Some people react that way. She will be more talkative when she feels better."

**Answer: A**

Explanation:

Hospitalization might precipitate a crisis in either the client or family. Clients might become demanding or withdrawn. Family members might become demanding to help them cope with insecurity. Psychosocial Integrity

**NEW QUESTION: 3**

You plan to use Azure Network Watcher to perform the following tasks:

- \* Task1: Identify a security rule that prevents a network packet from reaching an Azure virtual machine
- \* Task2: Validate outbound connectivity from an Azure virtual machine to an external host

Which feature should you use for each task? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

Explanation:

Task 1: IP flow verify

The IP flow verify capability enables you to specify a source and destination IPv4 address, port, protocol (TCP or UDP), and traffic direction (inbound or outbound). IP flow verify then tests the communication and informs you if the connection succeeds or fails. If the connection fails, IP flow verify tells you which security rule allowed or denied the communication, so that you can resolve the problem.

Task 2: Connection troubleshoot

The connection troubleshoot capability enables you to test a connection between a VM and another VM, an FQDN, a URI, or an IPv4 address. The test returns similar information returned when using the connection monitor capability, but tests the connection at a point in time, rather than monitoring it over time.
