- A. ã „ã „ã ^
- B. ã -ã „

Answer: A

Explanation:

Explanation

Devicel has the Configuration Manager client installed so you can manage Devicel by using Configuration Manager.

To manage Devicel by using Microsoft Intune, the device has to be enrolled in Microsoft Intune. In the Co-management Pilot configuration, you configure a Configuration Manager Device Collection that determines which devices are auto-enrolled in Microsoft Intune. You need to add Devicel to the Device Collection. You do not need to create a device configuration profile from the Intune admin center. Therefore, this solution does not meet the requirements.
