At the same time, our APP version of NSE6_FWB-6.1 study materials support offline learning, which avoids the situation that there is no way to learn without a network.

Besides, in today society, we lay stress on experience and [Exam Topics 1z1-071 Pdf](#) speculated background, so mastering an efficient material in hand is an absolute strength you cannot ignore.

So, the competition is in fierce in IT industry, Fortinet NSE6_FWB-6.1 training online files help your difficult thing become simple, But, you don't have to be overly concerned.

Pass Guaranteed Quiz 2022 NSE6_FWB-6.1: Fortinet NSE 6 - FortiWeb 6.1 "Reliable Valid Practice Materials Money Back Guaranteed, Full Refund to Ensure Your Rights and Interests, Firmly believe in an idea, the NSE6_FWB-6.1 exam questions are as long as the user to follow our steps to obtain the certificate.

Yes, RealVCE can help you, You know internet information is changing rapidly, Our website is here to provide you with the accurate NSE6_FWB-6.1 real dumps in PDF and test engine mode.

We value your money and give you 30% discount on the purchase of a complete NSE6_FWB-6.1 Exam preparation product set practice test software + PDF Q&A, The range of people covered greatly enhances the core competitiveness of our products and maximizes the role of our NSE6_FWB-6.1 exam materials.

NEW QUESTION: 1

You need to recommend a solution that meets the security requirements for the mailbox databases.

What should you include in the recommendation?

- A. Transparent Data Encryption (TDE)
- B. BitLocker Drive Encryption (BitLocker)
- C. Encrypting File System (EFS)
- D. Resilient File System (ReFS)

Answer: B

Explanation:

Topic 4, Litware

Case study

Exchange Server

Litware has an Exchange Server 2016 organization that uses the namespaces of mail.litware.com and autodiscover.litware.com.

The organization contains the servers configured as shown in the following table.

All Internet email is routed through HOU-EX1.

Requirements

Business Goals

Litware has security concerns about the data and messaging content of the research and development department. Preventing information leaks is a priority.

All users must be able to access their corporate email from any device.

Litware plans to minimize the costs associated with changing the Exchange Server environment.

Planned Changes

Litware plans to implement a site resilience solution ensuring that outbound email messages can be delivered if one of the sites fail. The site resilience solution must allow all users to access their mailbox if a server fails in each site.

Availability Requirements

Litware identifies the following availability requirements:

Load balancing must support the following functionalities:

* Load balancing must support the following functionalities:

* Provide SSL termination

* Remove failed Mailbox servers from the server pool.

* Data collected by Managed Availability from Outlook on the web must be used.

* Target server health must be configured as per-protocol so that only the affected client protocol is directed to another server if a server fails.

* The site resilience solution must follow the bound namespace model.

Security Requirements

Litware identifies the following security requirements:

* Users in the research and development department must be able to encrypt documents sent to external users. The encrypted email messages must never be forwarded by the external recipients.

* Only specific research and development department users must be able to access confidential internal email regarding the high-security government contracts.

* All certificates deployed to the Exchange organization must be issued by a trusted third-party certification authority (CA).

* The principle of least privilege must be applied to all users and permissions.

Compliance Requirements

Litware identifies the following compliance requirements:

* Any new mailbox created for the auditing department must have a retention policy named Audit immediately applied manually after the mailbox is created.

* Each week, a team of regulation auditors must review the email messages sent and received by all the research and development department users.

* The regulation auditors must be able to review the email messages of mailboxes placed on Litigation Hold.

* The regulation auditors must be able to gain quick access to the email messages.

NEW QUESTION: 2

Sie haben ein Microsoft 365-Abonnement.

Sie müssen Windows Defender Advanced Threat Protection (ATP) für alle unterstützten Geräte implementieren, die für die Verwaltung mobiler Geräte (Mobile Device Management, MDM) registriert sind.

Was sollten Sie in das Gerätekonfigurationsprofil aufnehmen?
Wählen Sie zum Beantworten die entsprechenden Optionen im Antwortbereich aus.

HINWEIS: Jede richtige Auswahl ist einen Punkt wert.

Answer:

Explanation:

Explanation
