NEW QUESTION: 1

What does "Branch managed" mean when adding a SteelHead to the SteelCentral Controller for SteelHead (SCC) inventory?

- A.** The SteelHead is not under control of the SCC. Only reports and status information are available.
- B.** This SteelHead has SteelFusion capability.
- C.** Another SCC as well as this one manages this SteelHead.
- D.** This SteelHead supports DNS caching and/or RSP or VSP policies.
- E.** This SteelHead is fully managed by the SCC.

Answer: A

Explanation:

Branch managed specifies the appliance is managed individually at the branch office. You cannot manage this SteelHead from the SCC.

NEW QUESTION: 2

Testlet: Tailspin Toys

<http://technet.microsoft.com/en-us/library/cc732774.aspx>

You need to recommend a solution that meets the following requirements:

Log access to all shared folders on TT-FILE02.

Minimize administrative effort.

Ensure that further administrative action is not required when new shared folders are added to TTFILE02.

What should you recommend?

Case Study Title (Case Study): General Background

You are the Windows Server Administrator for Tailspin Toys.

Tailspin Toys has a main office and a manufacturing office.

Tailspin Toys recently acquired Wingtip Toys and is in the beginning stages of Merging the IT environments. Wingtip Toys has a main office and a sales office.

Technical Background

The companies use the network subnets indicated in the following table: The Tailspin Toys network and the Wingtip Toys are connected by a point-to-point dedicated 45 Mbps circuit that terminates in the main offices.

The current Tailspin Toys server topology is shown in the following table:

The Tailspin Toys environment has the following characteristics: All servers are joined to the tailspintoys.com domain. In the Default Domain Policy, the Retain old events Group Policy setting is enabled. An Active Directory security group named "Windows System Administrators" is used to control all files and folders on TT-PRINT01. A Tailspin Toys administrator named Marx has been delegated rights to multiple Organizational Units (OUs) and object in the tailspintoys.com domain. Tailspin Toys developers use Hyper-V Virtual Machines (VM's) for development. There are 10 development VM's named TT-DEV01 to TT-DEV20.

The current Wingtip Toys server topology is shown in the following table: All servers in the Wingtip Toys environment are joined to the wingtiptoys.com domain.

Infrastructure Services

You must ensure that the following infrastructure services requirements are met:

All domain zones must be stored as Active Directory-integrated zones.

Only DNS servers located in the Tailspin Toys main offices may communicate with the DNS servers at Wingtip Toys.

Only DNS servers located in the Wingtip Toys main offices may communicate with the DNS servers at Tailspin Toys

All tailspintoys.com resources must be resolved from the Wingtip Toys offices.

All wingtiptoys.com resources must be resolved from the Tailspin toys offices.

Certificates must be distributed automatically to all Tailspin Toys and Wingtip Toys computers.

Delegated Administration

You must ensure that the following delegated administration requirements are met: Tailspin Toys IT security administrators must be able to create, modify and delete user objects in the wingtip.com domain.

Members of the Domain Admins Group in the tailspintoys.com domain must have full access to the wingtiptoys.com Active Directory environment.

A delegation policy must grant minimum access rights and simplify the process of delegating rights.

Minimum permissions must always be delegated to ensure that the least privilege is granted for a job task.

Members of the TAILSPINTOYS\Helpdesk group must be able to update drivers and add printer ports on TT-PRINT01.

Members of the TAILSPINTOYS\Helpdesk group must not be able to cancel a print job on TT-PRINT01.

Tailspin Toys developers must be able to start, stop and apply snapshots to their development VM's.

IT Security

Server security must be automated to ensure that newly deployed servers automatically have the same security configurations as existing servers.

Auditing must be configured to ensure that the deletion of users objects and OUs is logged.

Microsoft Word and Microsoft Excel files must be automatically encrypted when uploaded to the Confidential documents library on the Tailspin Toys Microsoft SharePoint site.

Multi factor authentication must control access to Tailspin Toys domain controllers.

All file and folder auditing must capture the reason for access.

All folder auditing must capture all delete actions for all existing folders and newly created folders.

New events must be written to the Security event log in the tailspintoys.com domain and retained indefinitely.

Drive X:\ on the TT-FILE01 must be encrypted by using Windows BitLocker Drive Encryption and must be automatically unlock.

A. Upgrade TT-FILE02 to Windows Server 2008 R2 Standard and use Advanced Audit Policy Configuration settings in Group Policy.

B. Upgrade TT-FILE02 to Windows Server 2008 Enterprise and use application control policies in Group Policy.

C. Add the Connection Manager Administration Kit feature on TT-FILE02.

D. Add the Network Policy and Access Services role to TT-FILE02.

Answer: A

Explanation:

Explanation

Explanation/Reference:

ADVANCED SECURITY AUDIT POLICY

Security auditing enhancements in Windows Server 2008 R2 and Windows 7 can help your organization audit compliance with important business-related and security-related rules by tracking precisely defined activities.

One of the settings is Audit File Share. This policy setting allows you to audit attempts to access a shared folder. If you configure this policy setting, an audit event is generated when an attempt is made to access a shared folder. If this policy setting is defined, the administrator can specify whether to audit only successes, only failures, or both successes and failures. There are no system access control lists (SACLs) for shared folders. If this policy setting is enabled, access to all shared folders on the system is audited.
